The Great Veranda-Band Fair.

The great fair opened Tuesday after-
noon at 2 o'clock. The tables were ar-
ranged around the sides of the hall and
a round one in the center. All were de-
corated with festoons of red and white
crepe paper. Just inside the entrance
to the hall was an Indian fortune teller's
tent, in which Harriet Craig told of
things of the future to many eager lis-
teners.
Those having charge of the various
tables were, Fancy work, Mrs. Minnie
McDaniels; Dolls and fancy bags, Mrs.
Eugene Libby; Art, Mrs. Horace Cole;
Teddy Bears, Mrs. Emma Bickford;
Aprons, Mrs. Emma Swan; Variety, Mrs.
Mason Kilgore; Candy, Mrs. Harry Gid-
den; Food, Mrs. Frank Murdock; Ice
cream, Mrs. Wallace Sheer. At each
table were several assistants.
The tables were heavily laden with ar-
ticles belonging to the several depart-
ments. The tables containing fancy
work contained almost every imaginable
article in this line of work that could be
desired.
The art table contained many hand-
some works of art. Some exhibits
were shown which were the work
of the local photographers. The apron
table was well filled with a variety of
aprons, an article that always meets with
ready sale. The Teddy bears attracted
a great deal of attention in their cage in
one corner of the hall where they re-
ceived the money and handed out their
packages. Tempting cakes, pies and
other eatables were seen on the food ta-
ble which received a liberal patronage.
Several guessing contests were con-
ducted. One to guess the weight of a
large and handsome cake and win the
cake. Over the art table was hung a
cloth sign with the words, "Veranda-
Band" woven on with braid. The per-
son guessing the amount of braid used
to receive a handsome picture.
The school teacher receiving the largest
number of votes won a handsome
pillow. Guess the number of beans in
a jar and receive a handsome present.
Tuesday evening the band played two
selections in front of the Opera House
and then proceeded to the hall, where
several selections were given, also a
cornet solo by Frank Knapp that received
a full hand. The Dean sisters furnished
an excellent violin solo with piano
accompaniment and responded to an
encore. There was a good attendance
and trade was very good at the various
tables.
Another guessing contest not already
mentioned is a white crocheted shawl
that is to be given to the one guessing
the number of inches of yarn in a skein
similar to that used in crocheting the
shawl.
At the art table the fine oil painting
presented by Mrs. Kate Richardson at-
tracted considerable attention.
The children and a majority of the
older people gathered about the corner
occupied by the Teddy Bears. Lavishly
they dispensed their wares, their shaggy
heads wagging and their little eyes
beaming in sympathy with the children,
who hailed with joy the opening of the
packages.
Wednesday evening the band furnish-
ed a good concert of several selections.
There was also a solo by Lona Noble and
readings by Frank Starbird. Both re-
sponded to an encore. The entertain-
ments were in charge of Frank Kimball.
Thursday evening will be the ball with
music by Stearns' orchestra.
One-half the proceeds of this fair go
to the band and the other half to the
Veranda club, which will use the money
for charitable purposes.

days.

urday and Sunday in town.

noon. It found its way to the Adver-
tiser and got into the hands of the

ter Oulian, Stuart W. Goodwin, Verne
Rich, Leon Berry, Dr. A. H. Staples and
Allie Buck have hired Camp Cumnock
for the summer and are getting it ready
for use.
The Kennebec Journal says, in speak-
ing of the Elm House that it is one of
the most famous hotels in New England
and that more famous political men have
put up at this hostelry than at any hotel
in Maine.

Doings at Oxford Park.

With the coming of spring Oxford
park is putting on a business like ap-
pearance. It will be remembered that a
large number of lots were sold here last
December day. Some preparations for
building were made last fall. This
work is being continued and several ot-
her parties are planning to erect homes
here.
Eugene Everett bought several lots
here, erected a comfortable residence
and has sold the house together with
five lots to George O. Bonney.
Dr. E. C. Walker has two lots and
made preparations for building a house
last fall. He now has the house up,
boarded, shingled and the rooms lathed
for plastering. James Hasey of Acron
Lord of South Paris is doing the car-
penter work. It is located on the cor-
ner of what were laid out by the owners
for Walcott and Walker streets. The
doctor will have a fine looking and very
convenient residence when completed.
Not a very large house but every foot of
space will be utilized to the best advan-
tage and it will be a home that anyone
would be proud to own. The main
house is 15x22 feet with an ell of the
same size. Off from the hall at the
main entrance is a good sized, pleasant
parlor. Then a sitting or dining room
11x15 and a kitchen 15 feet square. Off
from this is a pantry and summer kit-
chen. A piazza runs the entire length of
the ell. Up stairs there are four sleep-
ing rooms with a clothes closet for each
room. All the rooms are well lighted.
Just back of the house is a fine well of
water.

An Absent Minded Doctor.

He fixed up his automobile in good
shape. It was ready to start as soon as
the mud dried up a little. He had given
the machine some early spring door-yard
practice and had become familiar with
water-glass, pipes, valves, steering gear
and emergency appliances and was only
waiting for a call over reasonably dry
roads.
The call came by telephone and it was
from Arthur D. Cummings, Fore Street,
Oxford,--best and driest road leading
from the Norway metropolis.
The doctor went to the stable and
deliberately took the hitch weight and
long leather strap connecting the same
from his top-carriage and placed it in his
horseless gasoline "chug-chug" cart and
away down the street he steamed to the
music of barking dogs and the shying of
horses.
Arriving in Mr. Cummings' door-yard
he stopped with the air of "well I've
got to go promptly," reached down and
took hold of the hitch weight and strap
as he was alighting to cast anchor, when
the situation dawned on him.
He turned red in the face, looked
round to see who was looking at him
and tried to explain the situation. The ap-
pliance in the horse blanket under the
robe.
It was too late, it had been seen and
was reported to us by an eye witness,
who will vouch for the truth of it.
Apologies and explanations are un-
necessary and we reckon Dr. Bradbury
will have to pay the cigars in automo-
bile circles before he is fully reinstated.

School Notes.

ed last Monday on account of the illness
of the teacher, Annie E. Gibson. The

ready has a barn.

on Pleasant street to his son, Geo. H.
Fogg, and is to move into the village as
soon as he can get a rent.

Proved the Company Honest.

One of our well known women in town
who occupies a large house and who has
declared she knew her meter on electric
lighting read more than it should, or
that the managers of the business
guessed at the price instead of getting
by the correct meter reading, made an
experiment last month which we think
resulted in the management's favor. Im-
mediately after the meter was read ev-
erything was taken out and known as
sawp substituted. When the time for
meter readings came the meter was
read and the report sent in to the com-
pany's office.
The superintendent glanced at it, saw
something was wrong with the reading
was the very same one sent in four
weeks before. He sent his man back
the second time. But it was just right.
Then the lady of the house informed
him what she did, "just to see if they
were honest."
The minimum charge of the company,
everyone who uses the system knows, is
75c per month which includes rent of
meter, whether lights are used or not.
The lady evidently did not remember
this and had not used the lights any
that month when she might have had
the use of one or two, but was obliged
to pay the 75c or minimum charge,
which surprised her, besides allowing
that the business is run honestly. On
which side was the joke?

nesday.

ing camp at Oxford, Aroostook County,
where he is engaged as a guide.

on any line of printing you are thinking
of getting out, call or write us.

have been in Massachusetts the past few
weeks, have returned to Norway.

new hall at Crockett's Ridge, May night.

A full attendance is desired at the
meeting of the Young Men's Club, Sat-
urday night, which is to be held in the
near future, will be discussed. The
meeting will be held Friday evening at
the Congregational church vestry.
Beware of selling fires. Now is the
most dangerous time for fires of the
winter months. It is exceptionally dry
and the wind is blowing from the west
and forest fires will soon be raging un-
less great care is used. See to it and be
careful with pipes, matches and cigars.
On its last regular trip from South
Paris, Thursday evening the car went off
the track at the switch near the fair
grounds, landed diagonally across the
main track. No serious damage was
done but a number of those who came
over to the show were obliged to walk
home.

The Great Veranda-Band Fair.
The great fair opened Tuesday after-
noon at 2 o'clock. The tables were ar-
ranged around the sides of the hall and
around one in the center. All were de-
corated with festoons of red and white
crepe paper. Just inside the entrance
to the hall was an Indian fortune teller's
tent, in which Harriet Craig told the
things of the future to many eager lis-
teners.
Those having charge of the various
tables were, Fanny work, Mrs. Minnie
McDaniel; Dolls and fancy bags, Mrs.
Eugene Libby; Art, Mrs. Horace Cole;
Teddy Bears, Mrs. Emma Bickford;
Aprons, Mrs. Emma Swan; Variety, Mrs.
Mason Kilgore; Candy, Mrs. Harry Gid-
den; Food, Mrs. Frank Murdoch; Ice
cream, Mrs. Wallace Sheer. At each
table were several assistants.
The tables were heavily laden with ar-
ticles belonging to the several depart-
ments. The tables containing fancy
work contained almost every imaginable
article in this line of work that could be
desired.
The art table contained many hand-
some works of art. Some excellent
views were shown which were the work
of the local photographers. The apron
table was well filled with a variety of
aprons, an article that always meets with
ready sale. The teddy bears attracted
a great deal of attention in their cage in
one corner of the hall where they re-
ceived the money and handed out their
packages. Tempting cakes, pies and
other eatables were seen on the food ta-
ble which received a liberal patronage.
Several guessing contests were con-
ducted. One to guess the weight of a
large and handsome cake and win the
cake. Over the art table was hung a
cloth sign with the words, "Veranda-
Band" and on with bread. The per-
son guessing the amount of bread used
to received a handsome picture.
The school teacher receiving the large-
est number of votes won a handsome
pillow. Guess the number of beans in a
jar and receive a handsome present.
Tuesday evening the band played two
selections in front of the Opera House
and then proceeded to the hall, where
several selections were given, also a
cornet solo by Frank Knapp that received
a full hall. The Dan sisters furnished
an excellent violin solo with piano
accompaniment and responded to an
encore. There was a good attendance
and trade was very good at the various
tables.
Another guessing contest not already
mentioned is a white crocheted shawl
that is to be given to the one guessing
the number of inches of yarn in a skein
similar to that used in crocheting the
shawl.
At the art table the fine oil painting
presented by Mrs. Kate Richardson at-
tracted considerable attention.
The children and a majority of the
older people gathered about the corner
occupied by the Teddy Bears. Lavishly
they dispensed their wares, their shaggy
heads wagging and their little eyes
beaming in sympathy with the children,
who hailed with joy the opening of the
packages.
Wednesday evening the band furnish-
ed a good concert of several selections.
There was also a solo by Lona Noble and
readings by Frank Starbird. Both re-
sponded to an encore. The entertain-
ment was in charge of Frank Kimball.
Thursday evening will be the ball with
music by Stearns' orchestra.
One-half the proceeds of this fair go
to the band and the other half to the
Veranda club, which will use the money
for charitable purposes.

days.

ing of the Elm House that it is one of
the most famous hotels in New England
and that more famous political men have
put up at this hostelry than at any hotel

Doings at Oxford Park.
With the coming of spring Oxford
park is putting on a business like ap-
pearance. It will be remembered that a
large number of lots were sold here last
December day. Some preparations for
building were made last fall. This
work is being continued and several other
parties are planning to erect homes
here.
Eugene Everett bought several lots
here, erected a comfortable residence
and has and the house together with
five lots to George O. Bonney.
Dr. E. C. Walker has two lots and
made preparations for building a house
last fall. He now has the house up,
boarded, sided and the rooms lathed
for plastering. James Hasey and Aaron
Lord of South Paris are doing the car-
penter work. It is located on the cor-
ner of what were laid out by the owners
for Walcott and Walker streets. The
doctor will have a nice looking and very
convenient residence when completed.
Not a very large house but every foot of
space will be utilized to the best advan-
tage and it will be a home that anyone
would be proud to own. The house is
15x24 feet with an all of the same
size. Off from the hall at the main
entrance is a good sized, pleasant
parlor. Then a sitting or dining room
15x15 and a kitchen 15 feet square. Off
from this is a pantry and summer kit-
chen. A piazza runs the entire length
of the ell. Upstairs there are four sleep-
ing rooms with a clothes closet for each
room. All the rooms are well lighted.
Just back of the house is a fine well of
water.

W. C. T. U.
L. Alfreda Brewster spoke in the Bap-
tist church, Thursday, April 18th.
Those who were fortunate enough to
hear her do not entertain any doubt as
to the importance of the temperance
question. She held the closest attention
of her audience throughout the entire
lecture, and several new members joined
the Union at the close of the program.
Miss Brewster spoke on the Resubmis-
sion question, saying that it is a matter
of great congratulation to the temper-
ance people that they have not got to
spend strength, time and money to gain
back the prohibition law. She told how
representatives of the liquor party craft-
ily came to the leaders of the W. C. T. U.
and tried to convince them that the Resub-
mission was for the best interests of
prohibition, but the W. C. T. U. women
soon saw why these men were so eager
to have the law resubmitted to the peo-
ple. The liquor dealers have reason to
fear the White Ribbons. They know
that "the Woman's Christian Temper-
ance Union is an organization of Chris-
tian women banded together for the pro-
tection of the home, the abolition of the
liquor traffic and the triumph of Christ's
Golden Rule in custom and in law."
Miss Brewster said that we Maine peo-
ple, resting so secure in a prohibition
state, do not realize the condition of af-
fairs in the license states, where the
glittered saloon, with its glitter and soft
music draws the young men and women
into its fiendish clutches.
Miss Brewster recently visited a pris-
on in a license state, and the jailer
showed her in the basement a large dou-
ble cell full of "ingenious hides" that he
had captured for the liquor dealers in one
day. The parents of the boys had re-
quested him to stop the keeping open
Sundays and after hours, so he had in-
vestigated and taken these "hides" that
were used for Sunday selling. The jailer
said to her, "Go back to your state
and tell them to hold on to the prohibi-
tion law." The liquor seller will not
hesitate to break any law, and the more
he is bound down the better for the
home and the people.
The lecture closed with an earnest ex-
hortation to the women to work for the
W. C. T. U. for the sake of their own
boys or some other woman's boys, to
work "For God and home and native
land."
Miss Brewster will be with us at our
County Convention which meets here in
Norway, Wednesday and Thursday,
May 22 and 23.
Mrs. Gertrude Stevens Leavitt, daugh-
ter of the National President, Lillian M.
N. Stevens, will be the chief speaker at
this convention. Surely many good
things are coming to us at this time, and
it is hoped that every woman, yes, and
man, who is interested in the young peo-
ple, will make special plans to be pre-
sent at this convention. The program
opens at the Universalist church, Wed-
nesday morning and continues
Wednesday afternoon and evening, and
all day Thursday. Wednesday evening
Mrs. Leavitt will give an address.
All the people of the town, both vil-
lage and country people, are cordially
invited to attend any or all of these ser-
vices.

Co. D's Telegraphic Shoot.
Thursday evening seven men of Co. D
shot a telegraphic match with seven men
of Brunswick. Five shots, standing, sit-
ting and prone, making a possible 50 to
each man. Co. D won by a score of 450
to 451. The score:
Capt. J. W. Nash..... 69
Lieut. M. P. Stiles..... 73
Q. M. S. L. H. Daugherty..... 75
Serge. F. F. Swan..... 65
Serge. W. F. Marston..... 69
Serge. S. S. Maxim..... 70
Four of the seven men, Capt. Nash,
Lieut. Stiles, Serge. Swan and Daugherty
and a perfect score in the prone shot.
Lieut. Stiles was high man of both
teams, score 73. D. L. Gould who shot
on the Brunswick team was second high
man with a score of 72. Mr. Gould
taught school here last year and was a
member of Co. D.
Capt. J. W. Nash has moved his taxi-
dermist business into the old Norway
laundry building which he has had re-
paired and fitted up especially for the
business. This makes him a very con-
venient and well arranged shop.
Norway people have watched their
one permanent piece of State road to see
how it would act when the frost went
out. Thus far it has behaved well and
it is and has been since the snow went
off good, nice, hard, dry, solid wheeling.
This is between Dr. C. A. Stephens and
James Crockett's.
The Claire-Wilson Stock company
have been with us for several nights and
presented fairly good entertainments at
the Norway Opera house. They have
some very good specialties including a
W. Wilson, a ventriloquist of consider-
able ability. Mr. Hayes and Hayes are ex-
pert musical artists, and furnished some
good numbers. The attendance has been
fair.

An Absent Minded Doctor.
He fixed up his automobile in good
shape. It was ready to start as soon as
the mud dried up a little. He had given
the machine some early spring door-yard
practice and had become familiar with
water-glass, pipes, valves, steering gear
and emergency appliances and was only
waiting for a call over reasonably dry
roads.
The call came by telephone and it was
from Arthur D. Cummings, Fore Street,
Oxford.—best and driest road leading
from the Norway metropolis.
The doctor went to the stable and de-
liberately took the hitch weight and
long leather strap connecting the same
front to top-carriage and placed it in his
horseless gasoline "chug-chug" cart and
away down the street he steamed to the
music of barking dogs and the shying of
horses.
Arriving in Mr. Cummings' door-yard
he stopped with the aim of "well I've
got here promptly," reached down and
took hold of the hitch weight and strap
as he was alighting to cast anchor, when
the situation dawned on him.
He would be proud to own. The house is
15x24 feet with an all of the same
size. Off from the hall at the main
entrance is a good sized, pleasant
parlor. Then a sitting or dining room
15x15 and a kitchen 15 feet square. Off
from this is a pantry and summer kit-
chen. A piazza runs the entire length
of the ell. Upstairs there are four sleep-
ing rooms with a clothes closet for each
room. All the rooms are well lighted.
Just back of the house is a fine well of
water.

Doings at Oxford Park.
With the coming of spring Oxford
park is putting on a business like ap-
pearance. It will be remembered that a
large number of lots were sold here last
December day. Some preparations for
building were made last fall. This
work is being continued and several other
parties are planning to erect homes
here.
Eugene Everett bought several lots
here, erected a comfortable residence
and has and the house together with
five lots to George O. Bonney.
Dr. E. C. Walker has two lots and
made preparations for building a house
last fall. He now has the house up,
boarded, sided and the rooms lathed
for plastering. James Hasey and Aaron
Lord of South Paris are doing the car-
penter work. It is located on the cor-
ner of what were laid out by the owners
for Walcott and Walker streets. The
doctor will have a nice looking and very
convenient residence when completed.
Not a very large house but every foot of
space will be utilized to the best advan-
tage and it will be a home that anyone
would be proud to own. The house is
15x24 feet with an all of the same
size. Off from the hall at the main
entrance is a good sized, pleasant
parlor. Then a sitting or dining room
15x15 and a kitchen 15 feet square. Off
from this is a pantry and summer kit-
chen. A piazza runs the entire length
of the ell. Upstairs there are four sleep-
ing rooms with a clothes closet for each
room. All the rooms are well lighted.
Just back of the house is a fine well of
water.

An Absent Minded Doctor.
He fixed up his automobile in good
shape. It was ready to start as soon as
the mud dried up a little. He had given
the machine some early spring door-yard
practice and had become familiar with
water-glass, pipes, valves, steering gear
and emergency appliances and was only
waiting for a call over reasonably dry
roads.
The call came by telephone and it was
from Arthur D. Cummings, Fore Street,
Oxford.—best and driest road leading
from the Norway metropolis.
The doctor went to the stable and de-
liberately took the hitch weight and
long leather strap connecting the same
front to top-carriage and placed it in his
horseless gasoline "chug-chug" cart and
away down the street he steamed to the
music of barking dogs and the shying of
horses.
Arriving in Mr. Cummings' door-yard
he stopped with the aim of "well I've
got here promptly," reached down and
took hold of the hitch weight and strap
as he was alighting to cast anchor, when
the situation dawned on him.
He would be proud to own. The house is
15x24 feet with an all of the same
size. Off from the hall at the main
entrance is a good sized, pleasant
parlor. Then a sitting or dining room
15x15 and a kitchen 15 feet square. Off
from this is a pantry and summer kit-
chen. A piazza runs the entire length
of the ell. Upstairs there are four sleep-
ing rooms with a clothes closet for each
room. All the rooms are well lighted.
Just back of the house is a fine well of
water.

Another well-known ball player of this vicinity is Adams, the colored pitcher, who has been with the Oxford team the past few years. Adams pitched a game Friday forenoon for the Portland Independent team against Bowdoin, winning his game by a score of 8 to 3. The papers commented very favorably on his work. He won the admiration of the spectators as well as of the team.

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. Follow his advice.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, indigestion, dizziness. We wish you would ask your doctor about correcting your constipation by taking laxative doses of Ayer's Pills.

Lecture by Mrs. Ella M. Keith.

Last Sunday was an exceedingly interesting and profitable day at the Congregational church. Mrs. Ella M. Keith of Worcester, Mass., who for seventeen years has been superintendent of railroad work for the Women's Christian Temperance Union for New England, was present. She gave a short address to the Sunday School, which was largely attended.

The Junior C. E. felt highly honored because she came into their meeting at three o'clock and they were deeply interested in what she had to say. Mrs. Keith also attended the Senior C. E. meeting and gave a short talk. Her address at the 7 o'clock service was an exceedingly interesting one, holding the closest attention to the end. It was not theory but actual work which her hands had performed. Notwithstanding it was a rehearsal of what she herself had done for this important department of W. C. T. U. work, yet you felt you were listening to a woman who had been in the work for years.

Alton C. Maxim has bought the grain mill at West Paris, formerly run by L. E. Locke & Co., and will run it. He will deal in grain there and also do the grinding for his South Paris business.

Osman Chase, son of Mr. and Mrs. C. E. Chase, who has been telegraph operator at Bagley, Minn., for some time, is now station agent of the Canadian Pacific Railway at Whittemouth, Manitoba.

Doris Culbert observed her tenth birthday last home, Tuesday evening, by entertaining two of her friends. Refreshments of ice cream, cake, candy and oranges were served. Doris received numerous gifts.

Work on the new index at the registry of deeds is completed, and the index is given to the hands of the binder. This index covers the records of the past four years, and is larger than any previous index covering the same period. It is made on the book typewriter now used in the registry, and is a very neat job.

No services were held at the Methodist church Sunday, it being Conference Sunday. The pastor, Rev. H. A. Clifford, being in attendance at the Conference at Auburn. Mr. Clifford, who has been pastor of the South Paris church for the past three years, will be succeeded by Rev. Thomas N. Kewley, who has been pastor of the church in Winthrop for the past five years.

Rev. H. A. Clifford will preside over the churches of Strong and Phillips, he received the appointment at the Conference just held. He will reside at Strong. Mr. Clifford and family will be missed very much here. All were valued members of society and Mr. Clifford was much interested in educational matters, and is now serving his second term as supervisor of schools.

Mrs. Alice M., wife of Melvin F. Lovejoy, passed from this life at her home here, Saturday evening. She was the youngest daughter of the late Levi D. Stearns and Helen L. Stearns, now of Bethel, and was 22 years old. She was married to Mr. Lovejoy last June. Her mother and her sister, Mrs. Willey, of Bethel, and another sister, Mrs. Bryant, of Buckfield, were summoned so as to reach here before the funeral. She was usually sweet and amiable disposition, she will be much missed, not only by her family but by all who knew her. The funeral was held at the home on Main street at 1 p. m. Tuesday.
